

New Inclusive Ministry Initiative Beloved Son Ministry and Faith Moments Collaborate

VANCOUVER, WA May 1, 2009 – Beloved Son Ministry announces a partnership with Faith Moments, Inc. to serve families with children who experience disabilities. Equipping Christian communities for active engagement and meaningful participation with individuals and families who experience disabilities is Beloved Son Ministry’s mission.

Faith Moments, Inc. is a nonprofit, Internet-based service and resource ministry providing encouragement and materials to actively integrate Christian faith-building opportunities into every family schedule.

The weekly-animated devotions produced by Faith Moments will now periodically include a character named, Sam. From his wheelchair, Sam will help the other Faith Moments kids share God’s wonderful love in a very practical way. Sam’s inaugural appearance will be May 25.

“This partnership facilitates a new direction toward realizing inclusive Christian ministry.” said Mona Fuerstenau, Executive Director of Beloved Son Ministry. “Faith Moments has created an excellent platform for supporting family and Christian education ministries – adding a disability diversity component is an important step in the progression toward fully inclusive Christian environments.”

“This is an exciting new avenue of ministry for us,” said Rev. Keith Christiansen, Director and principle writer for Faith Moments, “we are committed to helping families and enhancing children’s ministry. This collaborative effort expands that circle in an extremely significant way.”

Animated devotions are available without cost at www.faithmoments.com . A new devotion is posted each Monday morning. Additional family resources and information are also available on the website.
