

# Dynamic Marriage Facilitator Training Course

Vancouver, Washington, June 25-27, 2010

## Make a Real Difference in the Lives of Married Couples

### A Dynamic Marriage Course Helps Couples to:

- Rediscover what made you fall in love in the first place.
- Discover what each other's top emotional needs are and how to meet them.
- Learn the six things that kill married love and how to avoid them.
- Get on the same page again about children, finances, even your love life.
- Not just talk more but want to talk more.
- Learn how to become irresistible to the one you love.

We've all seen the train wreck, seemingly strong couples in our community suddenly shattered by divorce, leaving in their wake torn relationships, hurt, anger, betrayal and, worst of all, devastated children. What if there was something we could do before the train got off the tracks? There is. Dynamic Marriage is a nationally known program that helps couples reconnect and ground their relationship in solid patterns of communication and respect. And it's coming to the Portland area this June.

Pastors, send leadership couples to this training and bring this highly successful marriage program to your congregation to help married couples build stronger relationships and stronger families.

Couples, learn how to save other marriages and build church community while doing something great for your own relationship!
